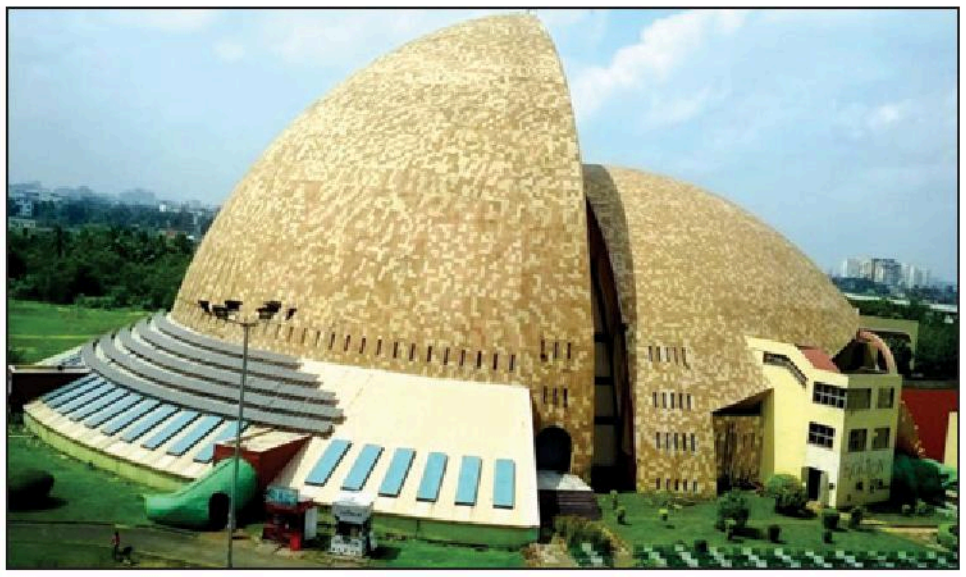
# Science City at Suttur

## Deputy CM Dr. Parameshwara inspects land



*Deputy Chief Minister Dr. G. Parameshwara seen during spot inspection for the proposed Science City at Suttur Srikshetra this morning. He was accompanied by Deputy Commissioner Abhiram G. Sankar, JSS Mahavidyapeetha Executive Secretary Dr. C.G. Betsurmath, Secretary S.P. Manjunath and other officials. Picture right shows a view of Science City at Kolkata, on the lines of which the Science City will be built at Suttur.*

Mysuru, June 24 (PM&BCT)- A Science City on a 25-acre land near Suttur in Nanjangud Taluk, 25 kms from Mysuru, being built in joint collaboration by the Centre and State, could be another science hotspot of the country. The proposed Science City, the first in South India, will be on par with the Science City in Kolkata that is one of the major tourist attractions in West Bengal.

This Science City at Suttur will create one of India's largest science hubs. The project is worth Rs. 200 crore and will be built as a joint venture by the Centre and State. The mega project is being set up following the directive from the Ministry of Science and Technology. The land for the project will be donated by Suttur Mutt free of cost.

A closed-door meeting was held this morning at the Suttur Mutt that was chaired by Deputy Chief Minister Dr. G. Parameshwara in the presence of Suttur Seer Sri Shivarathri Deshikendra Swamiji where a power-point presentation was made to the Dy.CM regarding the Science City. Media, however, was not allowed inside the meeting hall. Later, the Dy.CM inspected the land that is to be donated for the Science City.

The Suttur Veerasimhasana Mutt will have the distinction of hosting the Science City that will kindle scientific spirit among students and masses. Once the Science City becomes a reality, the Mutt, which has contributed immensely to the cause of societal advancement touching the lives of millions of people with educational institutions, agricultural research centres and Co-operative Societies, will draw seekers of knowledge and scientific wisdom.

Mutt sources and Dr. Parameshwara said that the Detailed Project Report for the mega project is ready and very soon, the project will be discussed in the Cabinet and sent to the Centre for the release of Rs. 100 crore. The State, on its part, will release its share of Rs. 100 crore.

## IMA Jewels Scam

# Cases filed crosses 1,900 in city

### Many victims reluctant to file cases fearing I-T action

Mysuru, June 24 (RKB&NNN)- The number of cases registered in the city in the multi-crore I Monetary Advisory (IMA) scam has gone up from about 1,600 to more than 1,900 cases. Out of these, nearly 1,300 cases are registered at Udayagiri Police Station and the remaining in Nazarbad, Mandi and Lashkar Police Stations *[See also Page-2]*.

Even though the number of complaints has trickled down in the last few days, a source close to a victim, speaking on condition of anonymity, told *Star of Mysore* today that though there could be more victims in this multi-crore scam in the city itself, many of them were hesitating to come forward to file complaints as they fear that the Income Tax (I-T) Department could follow their trail.

They may have invested from many sources of income in the IMA in gold and jewellery for which they cannot provide proof and hence they were reluctant to file complaints, the source added.

# IMA Jewels chief Mansoor Khan names Congress, JD(S) biggies

Bengaluru, June 24 (UNI)- Founder of I Monetary Advisory (IMA), Mohammed Mansoor Khan, who has been accused of cheating 40,000 investors, has now released a video from an undisclosed location, promising to return to India and expose several powerful people, including politicians and an IAS officer.

Mansoor Khan fled India around June 13 and investigators believe he is in hiding in Dubai. In his video, however, Mansoor Khan claims he left the country because there were threats to his life and the lives of his family members. Addressing Alok Kumar, the newly-appointed Police Commissioner of Bengaluru, Mansoor says he is willing to come back to India and cooperate with the investigation.

### NAMES OF POLITICIANS

Khan says: "I congratulate former Rajya Sabha member K. Rahman Khan, K. Ubaidullah Sharief (Congress worker), Mohammed Khalik Ahmed (editor, *Pasban),* Mukhtiyar Ahmed (named in a TADA case and discharged later), Feroz Abdullah Sait of Feroz Real Estate, Prestige Group's Irfan Razack and JD(S) MLC T.A. Sharavana (President of Jewellers' Association), for their success in causing harm to IMA, also those from my group of Directors who swindled money and those who spread hate messages that hastened the collapse of IMA."

Mansoor has been accused of running a ponzi scheme — where money is rotated from new investors to older investors — in the name of IMA. However, in his video, he claims his was a 'true business' which has been made to go bankrupt by corrupt forces at the Centre and State-level.

### IAS OFFICER DEMANDED BRIBE

Without naming him, Mansoor accused an IAS officer of demanding Rs. 10 crore bribe for issuing a No Objection Certificate (NOC) making way for a foreign company to invest in IMA. "I was ready to pay Rs. 10 crore to the IAS officer but the process got delayed and the foreign company did not invest," he said. "In the last 13 years, all entities of IMA have made a profit worth Rs. 12,000 crore, which we have paid to all our investors. Even the Rs. 2,000 crore capital investments have been returned to the investors. The remaining assets worth Rs. 1,350 crore will be liquidated to return the money I owe the investors," he says in the video.

Mansoor also names a bunch of people, sarcastically thanking them for stabbing him in the back. He claims there is a massive controversy behind IMA's fall, and also has bitter words for his investors who complained about IMA, and did not wait for his business to get better. "IMA has been helping around 21,000 families with monthly income, around 18,000 children with education across India, and given ration to 7,300 families," he says.

### THREAT TO LIFE

Promising to come back to India, Mansoor adds that he is in a better state of mind than when he released an audio clip last week, where he had said he was going to kill himself. Claiming there were anyway people trying to kill him, and that he wasn't afraid, he says, "The moment I reach there, those people would have made all the plans to kill me, all planning would have been done to shut my mouth — but I'm not coming back for myself."

"In the previous audio, I said that I would take my life. That was a demotivated statement of mine. But I know that if I have to die, then why I should kill myself when there are people ready to do that. I know that they can kill me in custody as well. They can kill me after I'm produced in Court and if I get bail from there and leave then they can kill me on the road."

### SHARAVANA CLARIFIES

Reacting to allegations made against him by Mansoor Khan, T.A. Sharavana told reporters, "There is no connection between me and him. The way his business functioned was damaging, and he doesn't follow the Association. Khan has a set of manufacturing dealers who supply at low rates, and he wanted the Association to bend rules for IMA. Let him prove his allegations with evidence. I will file a defamation case against him after discussing with my lawyer. All he is doing is diverting attention."

## Interpol issues Blue Corner Notice

Bengaluru, June 24 (UNI)- The Interpol has issued a Blue Corner Notice (BCN) against Mohammed Mansoor Khan. According to the SIT, based on their request, the Interpol division of the Central Bureau of Investigation (CBI) has issued a BCN against Mansoor, who is said to have escaped to Dubai from the Kempegowda International Airport, Bengaluru.

A BCN is issued to locate, identify or obtain information on a person of interest in a criminal investigation. "Mansoor's passport has also been impounded following the Interpol notice making it difficult for him to move from one country to another," said an official source.

"A BCN notice is a diluted request against an accused who is known to have fled the country as against a Red Corner Notice," he said.

## VOICE OF THE READER

# More on Mysuru city traffic problems

Sir,

Apropos ***"Whither City Traffic?", "Make K.T. Street pedestrian-friendly"*** *(SOM* dated June 23 and June 1) and so many allied letters, anybody who moves in this stretch will have to suffer the same ordeal and even more. In addition, many name-boards hanging like typical 'Sword of Damocles', including the one erected by the City Corporation mentioning Ward numbers etc., are hitting hard to the heads of unexpected hapless pedestrians moving on the encroached uneven footpath.

Almost 50 percent of the road is occupied for right parking, with additional wrong parking on the other side also hindering the smooth movement of both pedestrians and vehicles. Senior citizens, ladies and children should think twice before venturing out on this road.

Adding fuel to the fire, almost equal number of vehicles coming in opposite wrong direction in one-way flout all traffic rules, honking and hitting the pedestrians, their bag and baggage from both behind and front, which will neither damage them nor their vehicles.

In earlier days "Tiger" used to pass through warning and instilling fear in the minds of the offenders at least to a certain extent. It is requested that all concerned should take an adventurous hurdle walk at this stretch leaving their vehicles behind to experience the first-hand difficulties to mitigate the problems faced by hapless general public.

# Mysuru PU College applications rejected: Was the regulations changed for this year?

Sir,

The reason for rejection of all 28 applications for new PU Colleges in city seems to be selective *(SOM* dated June 22). There are presently a number of PU Colleges functioning in the city in apartment-like structures which do not meet the 2,000 sq mts or 4,000 sq mts without any hitch.

Was the regulations changed for this year? Or is it the change in the Government that has caused the rejection of applications. I am definitely not in favour of bending rules. The rules should be same for all and not biased.

If the Government is very strict, there will be scores of Colleges which will lose their recognition and licence. Will the authorities have the same yard stick for all please?

# Conservation concerns

## *Simple living*

**Governments in general and the incumbent Government of the country at the Centre in particular are marked with the noble intention of working for the country's progress and welfare of its citizens. The related plans and programmes, consistent with the set of policies appropriate to specific sectors of the economy such as agriculture, industry, education, health, revenue for funding public causes and so on, stated unequivocally in impressive narratives invariably leave a yawning gap between the intended goals and actually achieved at the end of the day, prompting the policy-makers to seek the expression *work in progress* and continue in the unending business of administration. That kind of a feeling of *comfort* in the face of unfinished tasks by the Government of the day, unarguably, leaves most citizens in a state of utter *discomfort*, euphemism for misery. The onus is on the individual to minimise that undesirable predicament of which the age-old prescription of the land's seers and social reformers is to adhere to *simple living*, more easily said than complied with.**

**The advisory of simple living attributed to the luminaries and society's mentors of the land who lived during the past many centuries and their counterparts in our times have suffered harsh comments in the circles of the land's intellectuals, whom many consider as pervert.**

**Having moved away from ways of living that marked consumption of related resources by individuals in quantities and rates far less than their current consumption to ways of life marked by unsustainable exploitative technologies, prompted a renowned economist more than 60 years ago to remark that the greed-driven ways of life by the masses couldn't last any further. Piped supply of water to urbanites, chopping giant trees for widening roads, emptying riverbeds of their sand to meet the unprecedented demand by builders of multi-storeyed structures, use of chemical fertilisers and toxic pesticides on crops for raising yields from the farm lands thus ruining soil quality, emission from automobiles congesting atmosphere, rendering air unfit for breathing, not to forget plastic proliferation, are major examples of the fallout of giving up *simple living* en masse.**

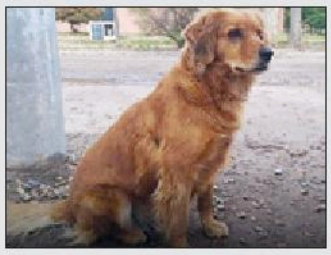
**Unless humanity at large decides to adopt simple living and slow pace of life, conservation of resources that support life of humans as well as flora and fauna is sure to be only talked about, that too not for a short time ahead.**

## EDITOR'S BOTTOMLINE

***We belonged to a period when the radio reigned supreme in every household. Right from the eldest person to the youngest one, everyone had a favourite radio programme, which they listened to regularly. My grandfather was addicted to the news that would be broadcast at regular intervals. Since we didn't have access to television in those days, my brother would remain stuck to the radio during cricket matches to listen to the commentary. When I was an adolescent, *Vividh Bharati* was at the top of my list of favourite programmes. It used to air the songs of the soon-to-be legendary Ilaiyaraaja, who had entered the film world in the 70s. My mother would finish her daily chores by the time her favourite plays aired and sit avidly near the radio during dinner time. Occasionally we would join her. Though it was just the radio around us, we never felt any boredom those days. My daughter, a 2000s kid, had entertainment at the tip of her fingers, thanks to the television remote control. In addition, there is the internet and an array of gadgets like the iPhone in her kitty. Yet, the most common phrase that she used to utter is, "Amma, I am feeling bored."*** — *Revathy Venkatesan in The New Indian Express*

## NEWS SPARKLERS

### Dog waiting for owner outside Police Station



Buenos Aires: A Golden retriever mix named Sheila from Buenos Aires in Argentina, has been patiently waiting outside a local Police Station ever since her owner was arrested there, over a year ago.

The dog reportedly showed up outside the Police Station in 25 de Mayo, a small town in Argentina's Buenos Aires province, soon after her owner was brought in on charges of assault, last year. Staff there believe that she must have followed the patrol vehicle her owner was in, but one thing is for sure, once she arrived, she never left. It didn't take long for the officers to notice her presence, and some of them started bringing her food to gain her trust.

Sheila was cautious at first, but today she depends on the policemen for sustenance, sleeps inside the station at night, and sometimes accompanies her carers on patrols. But she always comes back to the Police Station to wait for her master.

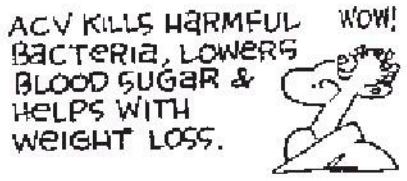
### Scammers impersonate French Minister, swindle $90 million

Paris: In one of the most daring rackets in history, one or more individuals used a silicone mask to impersonate France's Minister of Defense, Jean-Yves Le Drian and scam an estimated €80 million ($90 million) from wealthy victims. The scam was simple yet pretty well thought out. Scammers would pose as a member of Le Drian's inner circle and contact both French and foreign businessmen to arrange a conversation with the esteemed "Minister."

In the beginning, the conversations were carried out over a phone, with the scammer impersonating the French Minister reproducing Le Drian's voice almost to perfection. But, then, in order to make the whole thing even more believable, they switched to video calls.

## HEALTH CAPSULE by Bron Smith

### Is apple cider vinegar really healthy?



Among all the varieties of vinegar, apple cider vinegar stands out because of its higher pH, at 3.5 to 5. Less-acidic foods contribute most to health. All other vinegars except coconut sap vinegar, promote acidity. Apple cider vinegar is unique in this regard.

** Health Capsules is not intended to be of a diagnostic nature.*

## *'Stotra Ratna'* CD release in city on June 25

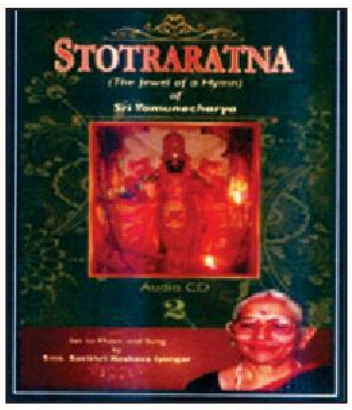
Mysuru, June 24- Sri Yathiraja Narayana Ramanuja Jeeyar Swamiji, the 41st pontiff of Sri Ramanuja Mahasamsthanam, Melukote, will release the CD of *Stotra Ratna* — 65 precious verses of Sri Yamunacharya (916 AD to 1041 AD) in Sanskrit, tuned and sung by late Savithri Keshava Iyengar — at a programme to be held at Sarada Vilas Centenary Hall, Krishnamurthypuram, in city on June 25 at 6 pm.

Dr. P. Venkat Rangan, Vice-Chancellor, Amrita Vishwa Vidyapeetham, will inaugurate the programme. Renowned violinist *Padma Shri* A. Kanyakumari and advocate O. Sham Bhat will receive the first copies of the CD.

CD will be sold at the end of the programme and the proceeds offered to charity.

**Profile:** Savithri Keshava Iyengar (1930-2007) was born in Shivamogga to advocate T.G. Narayana Iyengar and Rangamma on June 25. She spent her childhood and early youth there and took part in India's Freedom Struggle.

After her marriage to advocate B.C. Keshava Iyengar (1919-1995), she spent the next six decades of her life in Mysuru. She was a musician and spent her life dedicated to Adyatmika Sadhan and Nadopasana.



An ardent devotee of Andal and the Vishishtadwaita Parampara, she has tuned and sung some of the greatest poetic works like *Thiruppavai, Godastuti, Raghuveera Gadyam* and *Stotra Ratna* to mention a few, in various Ragas of Karnatak Classical style.

**FLUTE CONCERT ON JUNE 26**

***Vid. Prapancham Balachandran***

A flute concert by Vid. Prapancham Balachandran and troupe has been organised at the same venue on June 26 from 6 pm to 8.30 pm. Prof. G. Hemantha Kumar, Vice-Chancellor, University of Mysore (UoM), will inaugurate the event.

## Really...?

- ***The "Windy City" name has nothing to do with Chicago weather: Chicago's nickname was coined by 19th-century journalists who were referring to the fact that its residents were "windbags" and "full of hot air."***
- ***Cats have fewer toes on their back paws: Like most four-legged mammals, they have five toes on the front, but their back paws only have four toes. Scientists think the four-toe back paws might help them run faster.***

## LAUGHTER THE BEST MEDICINE

***To be stung by a mosquito is not very pleasant. But the thought that an insect with just 10 brain cells could mess up your entire night is something quite different !***

# Man kills wife in Mandya

Mandya, June 24 (Nagaiah& KS)- A fight between a husband and his wife has ended with the husband killing his wife at Kirugaval village, Malavalli taluk in Mandya district last night.

While the deceased has been identified as Sowmya (30), her husband who has fled from the spot after committing the crime is Kumaraswamy, a resident of Kalkuni village in Mandya.

Sowmya was given in marriage to Kumaraswamy about 10 years ago and they have a son and a daughter.

*Sowmya and Kumaraswamy*

A few days ago, there was a fight between Sowmya and Kumaraswamy, following which Sowmya had left her husband's place and was staying with her parents in Kirugaval. Kumaraswamy, who had consoled his wife, began to visit her at her parents' house quite often.

On Sunday night, Kumaraswamy, who had come to his in-laws' house, had dinner with the family members and retired for the day along with his wife and children.

Meanwhile, a fight ensued between them and Kumaraswamy in a fit of rage allegedly slit the throat of Sowmya with a hacksaw blade and fled from the spot.

A case has been registered at Kirugaval Police Station in this regard.

# Ganja peddlers held

## 187 grams ganja, Rs.1,990 cash seized

Mysuru, June 24 (KS)- Police personnel attached to the Economic Offences and Narcotics Crime Police Station have arrested two persons on charges of peddling Ganja at an empty shop in Mandi Mohalla on June 21 and have seized 187 grams ganja and Rs.1,900 cash from them.

The arrested are 28-year-old Fairoz Khan, a native of Wilson Garden in Bengaluru and residing in Shanthinagar, Mysuru and 56-year-old Rafiq Ahmed of Mandi Mohalla. A case has been registered at Economic Offences and Narcotics Crime Police Station in this regard.

DCP M. Muthuraj and CCB ACP B.R. Lingappa supervised Economic Offences and Narcotics Crime Inspector N.G. Krishnappa, ASI L. Subashchandra and staff V. Anand, T. Prakash, N.M. Nagesh, H.S. Puneeth, Pushpalatha and Rajesh in the nabbing and seizing operation, according to a press release from the PRO, City Police Commissioner's Office, Mysuru.

# Bike-lifters arrested

## Two bikes worth about Rs.2.2 lakh recovered

Mysuru, June 24 (KS)- The City Crime Branch Police on June 22 have arrested three persons on charges of lifting two-wheelers in city and have recovered two bikes from them. The arrested are 19-year-old Ramesh Kumar, 19-year-old Chethan and 20-year-old Shivaprashanth, all residents of Kanakapura village in Ramanagaram district.

During interrogation, the accused are said to have confessed of lifting the bikes at Kanakapura and Malavalli along with their accomplice Sudeep. Based on the information provided by the accused, the Police have recovered one Royal Enfield bike and one Apache RTR 180 bike worth about Rs.2.2 lakh from them.

DCP M. Muthuraj and CCB ACP B.R. Lingappa supervised CCB Inspector C. Kiran Kumar, Siddarthanagar Traffic Inspector Aruna Kumari, CCB ASI Chandregowda and staff Ramaswamy, P.N. Lakshmikanth, M.R. Ganesh, C. Chikkanna, Shivaraju, Yakub Shariff, Asgar Khan, Rajendra, Niranjan, Chandrashekar and Chamundamma, in the nabbing and recovery operation, according to a press release from the PRO, City Police Commissioner's Office, Mysuru.

# Kempegowda Jayanti to be celebrated in a grand manner on June 27

Mysuru, June 24 (YDS&DM)- Tourism Minister S.R. Mahesh has said that Nadaprabhu Kempegowda Jayanti will be celebrated in a grand manner in the city on June 27.

Speaking at a preliminary meeting organised by the Vokkaliga Sangha at Bandanthamma Kalamma Samudaya Bhavan on New Kantharaj Urs road here recently, Mahesh called for an apolitical celebration of Kempegowda Jayanti with the involvement of all sections of society.

Pointing out that Kempegowda Jayanti will be celebrated across the State, he suggested for inviting religious heads from other communities also.

Calling for celebrating the Jayanti in a simple but purposeful manner, the Minister said the modalities of the celebrations will be discussed with District in-charge Minister G.T. Devegowda. He further said that the Vokkaliga Samaja saying that no holiday was needed for Kempegowda Jayanti can be a model to others.

MLA L. Nagendra said that community members must participate in large numbers and thus ensure the success ofthe Jayanti. Mysuru-Chamarajanagar Vokklaliga Sangha President Mahalingam said that the Sangha would donate Rs. 50,000 for Kempegowda Jayanti celebrations and appealed the well-off community members for making liberal donations for the same.

Mayor Pushpalatha Jagannath, leaders Prasanna N. Gowda, Rajkumar, Prashanth, Sannaswamygowda, District Kannada Sahitya Parishat President Y.D. Rajanna, Corporator SBM Manju and others were present.

# MCC's concrete plan to manage E-Waste scientifically

## CII to work with civic body to create awareness

Mysuru, June 24 - The Mysuru City Corporation (MCC) is coming out with a concrete and complete plan to manage electronic wastes scientifically, said Dr. D. G. Nagaraj, Health Officer, MCC.

To create awareness and to draw stakeholder attention and adequate steps to implement towards E-Waste Management in the city, Confederation of Indian Industry (CII), Mysuru in association with SDM Institute of Management and Development (SDM-IMD), organised a stakeholder interaction to deliberate on "E-Waste Management in Mysuru" at the Institute on Chamundi Hill Road here on June 21.

"Mysuru city needs to have concrete plan with regard to E-Waste Management and we have already come out with action plan. Six months back we had a presentation from a private company who is into E-Waste Management working in Bengaluru. Already we are in talks with them and also entering into an agreement with them so that E-Waste in Mysuru city is managed well. We are scientifically planning to collect E-Waste from different locations and also trying to collect data. We have planned to complete a concrete scientific disposal of E-Waste Management which we are planning in the near future," said Dr. Nagaraj

Bhaskar Kalale, Chairman, CII Mysuru said, "In India E-Waste is not a problem but a menace. Hence the first thing to do is to create awareness about what is E-Waste. Even educated people in corporates are not much aware what E-Waste is. There should be focused effort; therefore we are willing to working with MCC to make sure we put our brains together to start generating awareness and then suggest actionable plans. On the lines of wet waste which are being collected by visiting door-to-door by MCC, E-Waste should also be started on similar lines. Mysuru is becoming plastic free and similar effort should also be put to make Mysuru free from E-Waste."

*Seen are (from left) **Shankar Prasad, Convenor, IT/ITES Panel, CII Mysuru; Dr. P.M. Kulkarni, President, 'Bhageerath,' E-Waste Management Company in Bengaluru; Dr. D.G. Nagaraj, Health Officer, MCC; Bhaskar Kalale, Chairman, CII Mysuru; Dr. A. Ramesh, Senior Environmental Officer, KSPCB, Bengaluru; Dr. H. Gayathri, Deputy Director, SDM-IMD and Raghava Lingegowda, Co-Convenor , IT/ITES Panel, at a stakeholder interaction to deliberate on "E-Waste Management in Mysuru" held at SDM-IMD in city recently.***

"On an average every year 50 million tonnes of E-Waste is getting generated worldwide, out of which just 10 million tons get recycled and reused which is less than 20 percent and the rest are put into landfills. In India alone 2 million tonnes of E-Waste are generated; 82 percent of these E-Wastes come from computers, monitors and home appliances like refrigerators, television, etc. After US, China, Japan and Germany, India stands fifth in most polluting countries in the world when it comes to E-Waste. **There is prediction that by 2020 E-Waste from old computers in India will increase by 500 percent, through discarded mobile phones by 18 times and televisions by two times,"** said Kalale.

Dr. H. Gayathri, Deputy Director, SDM-IMD said, "India is one of the biggest producers of E-Waste but unfortunately it is managed in an unorganised and unscientific manner. Hence safe and sustainable disposal of handling E-Waste is need of the hour."

Bhageerath (an E-Waste Management Company in Bengaluru) President Dr. P.M. Kulkarni and Dr. A. Ramesh, Senior Environmental Officer, KSPCB (Karnataka State Pollution Control Board) also briefed about E-Waste Management, how to implement E-Waste Management rules, guidelines for setting up collection centres and who needs to set up it up. Ramesh also mentioned that in Karnataka there is no recycling unit for mercury containing E-Waste.

E-Waste poses a very daunting challenge of its management. Managing hazardous chemicals and heavy metal components without scientific and safe handling increases the chances of E-Waste ending in our dry waste and eventually into landfills which in due course will contaminate our water bodies and the top soil, leading to increased rate of cancer and other harmful diseases in the near future. Therefore, CII Mysuru, in association with MCC and KSPCB proposes to set up a **Model E-Waste Collection and Segregation Centre,** wherein E-Wastes are collected and segregated in Mysuru and properly handled and disposed in a scientific way ensuring that the quality of urban habitat in Mysuru continues to remain one of the best in the world, according to a press release from T.U. Augustine, Deputy Director, CII, Mysuru.

# Organic Seed Production workshop for farmers, gardeners on June 29

Mysuru, June 24- Sahaja Samrudha in collaboration with NABARD (National Bank for Agriculture and Rural Development) is organising 'Organic Seed Production' workshop on June 29 at 11 am at Nanjaraja Bahadur Choultry in city. Entry is free to all. Interested farmers and urban gardeners can register for the workshop. For more details contact: Shivrudra on Mob:88672-52979.

**Traditional seeds**

Traditional seeds have been faithfully reproduced and handed down from generation to generation, which have unmatched richness of flavour, nutritional benefit, and resistance to pests and diseases.

Conserving diversity on-farm is a farmer-based initiative, as it provides healthy environment, enhances biological wealth and retains germplasm within the farming communities. Managing agro-biodiversity is crucial for food security especially in marginal areas, where locally adapted crops are resistant to drought and make it possible to cope with adverse conditions.

Capacity-building training on various aspects of organic seed production, agronomy, business skills, and marketing is key to successful enterprise development, according to a press release from G. Krishna Prasad, Director, Sahaja Samrudha.

# "My first time in Parliament was like first day at School"

## Mandya MP Sumalatha Ambarish says going back to film industry depends upon projects

New Delhi, June 24 (UNI)- Actor-turned-politician Sumalatha Ambarish, who made history by becoming the first Independent woman candidate to enter the Lok Sabha from Karnataka, envisions a House that comprises 50 per cent female members.

"We have debated a lot about providing 33 per cent reservation to women in Lok Sabha. But why not 50 per cent? I would love to see half of the members in the House to be women," the MP from Mandya said.

Equating her first day in the Lower House to that of first day at School or College, she mused that she was learning to get acquainted with the formalities of the House. "My first time in Parliament was like the first day at School or College. It was a mix of nervousness and excitement. The learning curve, however, is exciting," she said.

Even though she says that there were various challenges being an independent candidate, the MP asserted that it freed her from the burden of towing the line of a particular party and could raise the issues of her Constituency independently. Talking about raising issues prevalent in the Parliamentary Constituency she represents, she said revival of Lakes is on her priority.

"During my campaign, I saw that many Lakes have dried up. Women have to walk several miles to fill water to meet their daily requirement. I have already met the Jal Shakti Minister and have submitted a memorandum in this regard.

"Mandya is a sugarcane growing belt. The farmers are not getting proper price for their produce; I want to raise this issue on priority. Connectivity and road infrastructure is another area of concern, which I would like to bring the Government's attention to," Sumalatha said. The 55-year-old, who lost her husband, Kannada actor-politician Ambarish, last year reminisces that her plunge into politics was "purely accidental."

"It was my husband who had nurtured this Constituency. His supporters turned up in large numbers at his funeral, which touched me and I decided to contest. I did not care if I won or lost, I had to respect my husband's memory."

Since he (Ambarish) was a Congress leader, Sumalatha had sought the party ticket. However, the Congress decided to field Nikhil Kumaraswamy, Chief Minister H.D. Kumaraswamy's son, due to the coalition with the Janata Dal-Secular (JD-S).

"It was a long battle to victory, as I was contesting against the Chief Minister's son. The eight Legislators in the Parliamentary Constituency were also from the ruling party of the State. A vitriolic campaign was launched against me and I was called an outsider, entering the political fray just months before the elections," she said.

The MP, however, said that she received support from unexpected quarters as the Bharatiya Janata Party (BJP) did not field a candidate against her.

"I received immense support from my people and I am grateful for that. I defeated my rival by 1.2 lakh votes in my debut election. I was disillusioned after my husband's death, but this win has given me immense hope to carry my husband's legacy forward." Though an Independent candidate, Sumalatha expects support from the BJP Government in the Centre in resolving the issues of her Constituency.

She said that she would give her support to the parties based on the issues. "I will support the decisions that benefit the people of my Constituency as well as Karnataka."

An actor by profession, she has worked in over 200 films in all four South Indian languages as well as Hindi. "Going back to the film industry would depend upon the kind of projects I receive. But serving my people comes first and I want to concentrate on that right now," Sumalatha signed off.

# Official nod for 207 Home Stays to operate in Kodagu

Madikeri, June 24 (UNI)- The serene coffee district of Kodagu, nestled on the bowl of Western Ghats, has been facing severe economic crisis due to dwindling tourist arrivals owing to last year's natural calamity where floods and landslides ravaged many parts of the district.

Tourism is in deep crisis with many hotel properties in Madikeri and Kushalnagar, the two busiest tourist destinations, put up for sale. Stakeholders are unable to cope with the loss in business with continued drop in tourist arrivals. In its attempt to revive tourism, the District Administration has approved 207 Home Stays to operate.

Kodagu is home to hundreds of Home Stays but only a few have registered with the Tourism Department. The Administration is in the process of verifying about 400 more Home Stays to give them the official stamp of recognition.

Those who have failed to register will be considered illegal Home Stays and invite action. As per the Department rule, it is mandatory for Home Stay owners to display a board stating that their Home Stay is registered with the Tourism Department.

It took more than a year for the Administration to assess the facilities at Home Stays since many have mushroomed all across the district without a valid licence in remote areas. Kodagu has seen an unprecedented drop in tourist arrivals this year. Tourism has not picked up after the devastating floods and landslides the coffee land witnessed last August.

The State Government brought out guidelines to regulate Home Stays and directed all Home Stay owners to register their establishments. A majority of owners are yet to follow the directions of the Department. Prior to registering their names, the owners must get a No Objection Certificate (NOC) from the local Police and other agencies such as the Gram Panchayat and Municipal Corporation.

If an owner has multiple Home Stays, he can register only one Home Stay where is staying. Only close relative (father, mother, son or daughter) can operate Home Stays on partnership. However, one of them must reside in the Home Stay.

Other guidelines include the owner of the Home Stay must own the land where the business is being operated. A maximum of five rooms in the Home Stay only can be provided for tourist accommodation. The Home Stays should have good a road link and ample space along with all basic amenities for tourists.

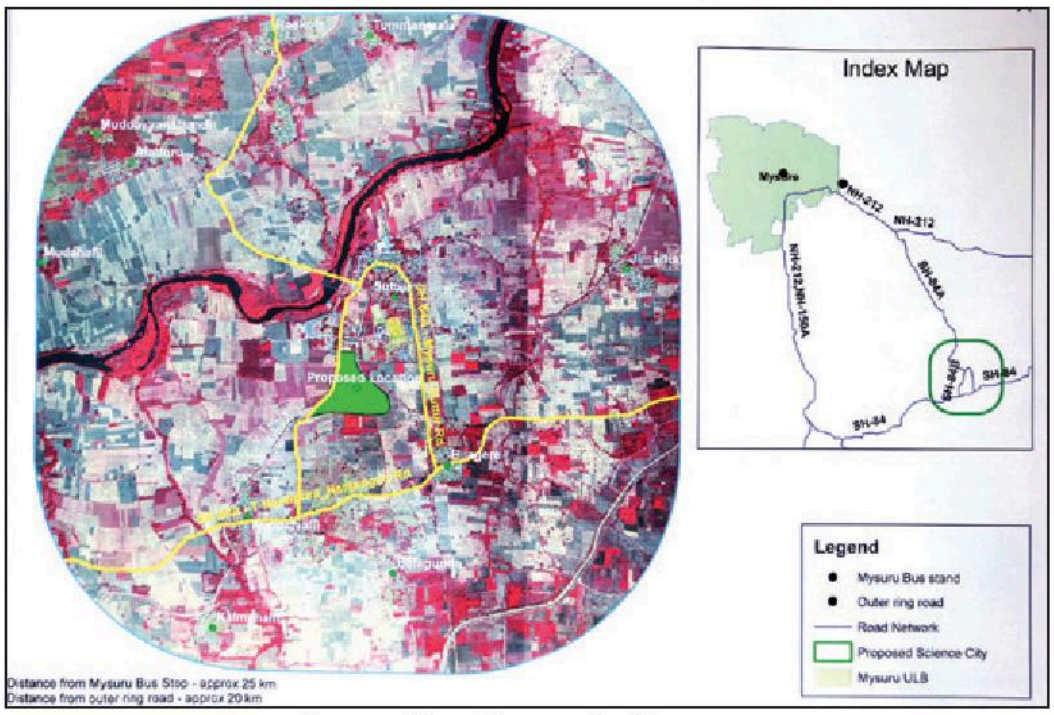
Owners should inform rates applicable for tourists. It is also compulsory for the owner to make a computerised record of tourists who have availed accommodation and generate proper bills among others. The Tourism Department has also provided rating facilities for Home Stays, which, however, is optional.

**Deputy Commissioner of Kodagu, Annies Kanmani Joy, has put up a link on her Facebook page and has called upon the tourists to check the names of the Home Stays on the Tourism Department website, before they check-in. The website link is: *https://kodagu.nic.in/en/tourism/accommodation/***

The website page contains a list of 207 approved Home Stays. The lists of approved hotels and travel agencies have also been put up on the website, along with the contact numbers.

# Science City at Suttur

## Proposed Science City Map



*Proposed location marked in green.*

(Continued from page 1)

The works are expected to begin in six months and the project will be completed in five years. The Mutt has set a target of three years for the completion of the project, Dr. Parameshwara said.

The Science City will popularise basic science and will have scientific galleries, planetariums, space theatres, 3-Dimention demonstrations, astro technology, science models from across the world, animated models of evolution and 'Science on a Sphere.'

It will also house museums, science park and exhibition galleries, which would deal with the modern advancements in astronomy, biology and other scientific disciplines.

In all, the Science City will have all educational tools to help illustrate Earth's dynamic processes and associated science to people of all ages.

The Science City at Suttur will be on par with the Kolkata Science City that was inaugurated in 1997. The Kolkata Science City has been developed as a major attraction for the residents of Kolkata as well as for the national and international visitors to the metropolis.

Developed by the National Council of Science Museums, it is one of the largest and finest in the world, presenting science and technology in a stimulating and engaging environment that is truly educational and enjoyable for the people of all ages. It has, over the years, become a place for memorable experience and enjoyment for both the young and the old.

During the inspection of the Science City land, Dr. Parameshwara said that Science Centres will be established across all districts of the State and Regional Science Centres will come up at select cities.

JSS Mahavidyapeetha Secretary S.P. Manjunath, Executive Secretary Dr. C.G. Betsurmath, Deputy Commissioner Abhiram G. Sankar, City Police Commissioner K.T. Balakrishna, Superintendent of Police C.B. Ryshyanth, MUDA Chairman P.S. Kantharaj and others were present.

# Tigress found dead near 'Tiger Block'

H.D. Kote, June 24 (MTY&KS)- The carcass of a tigress aged between 9 and 10 years was found near Hebballa Lake, 'Tiger Block' in H.D. Kote taluk last evening.

It is suspected that the tigress may have died about two days back and the carcass was decomposing.

DCF Dr. K.C. Prashanth Kumar, Wildlife Warden Kruthika Alanahalli, RFO Madhu, Veterinarian Dr. D.N. Nagaraj and others rushed to the spot this morning and conducted an inspection. Dr. Nagaraju conducted the post-mortem.

DCF Dr. Prashanth Kumar, speaking to *Star of Mysore*, said that old wound marks were found on the body of the tigress and added that the tigress had strayed out of the forest following an in-flight. However, the exact cause of the tigress' death would be known only after receiving the report, he added.

# Regional Science Centre at Mysuru in limbo

Mysuru, June 24- Even as Deputy Chief Minister Dr. G. Parameshwara said that Science Centres and Regional Science Centres will be established across the State, the Union and State Government's ambitious plan to establish a Regional Science Centre in Mysuru is in a limbo.

The project was supposed to come up on the banks of Kukkarahalli Lake. The National Council of Science Museums (NCSM) planned the Regional Science Centre in the premises of University of Mysore (UoM).

The Science Centre was to be jointly developed by State and Centre with 50:50 funding. The project, however, has not seen the light of the day as environmental activists and Green Groups are demanding relocation of the Centre from the ecologically-sensitive Kukkarahalli Lake.

Construction activity had begun for the Science Centre on the Hunsur Road near Jaladarshini Guest House and pillars were raised. Due to stiff opposition, however, the project was shelved.

# Cases filed

(Continued from page 1)

All the cases will be bunched and submitted to the Cyber Crime and Economic Offences Wing at the CCB premises on Ashoka Road and this will in turn be sent to the Special Investigation Team (SIT) in Bengaluru, probing the IMA Jewels scam, said Inspector Krishnappa, speaking to *Star of Mysore* here this morning.

It may be recalled that Mysureans have invested more than Rs.63 crore in the Ponzi Scheme floated by IMA and this could go up further.

# Rail services resume as usual

Mysuru, June 24 (RK&DM)- After a week of inconvenience to Rail passengers and daily commuters, who were dependent on trains for travel, the Rail services from the City Railway Station resumed as usual from this morning.

To take up a major yard remodelling work at the City Railway Station, the Railway authorities had cancelled around 30 trains that were travelling to Bengaluru and other cities for a week from June 16 to 23. Also, 15 trains were partially cancelled and five others were diverted. This apart, a few trains like Chennai Express were departing from Pandavapura, over 20 kms from the city on Mysuru-Bengaluru section.

As the remodelling work was completed within the set deadline, the Rail services to and from Mysuru resumed as usual from early this morning, according to the Railway authorities.

The resumption of Rail services in full has brought relief to thousands of commuter who take trains to reach their destination.

# Villagers complain of air pollution from Marigold Flower Processing unit

## MLA visits Morarji Desai residential school, hears grievances

Gundlupet, June 24 (SOMG& KS)- Following several complaints about air pollution caused by the Marigold Flower Processing unit at Kaggaladahundi village in the taluk which was causing a lot of problems to the students of Terakanambi Morarji Desai Residential School, MLA C.S. Niranjan Kumar visited the residential school and heard grievances of the students on Saturday evening.

The villagers told the MLA that ever since the Marigold Processing Unit began functioning at the border of Bandipur buffer zone, the residents of all seven villages in the surroundings of the processing unit and students of Morarji Desai Residential School have been suffering from air pollution and are being forced to inhale the stench emanating from the processing unit.

The villagers, who complained of giddiness and nausea after inhaling the polluted air, requested the MLA to visit the residential school to know the problem himself following which Niranjan Kumar rushed to the residential school and met Principal Savitha and the students.

The students complained of stench in the air since three days causing difficulty in breathing and unable to concentrate on studies.

The students also said that the stench was unbearable during night time which was causing them to vomit soon after consuming dinner. The MLA, after listening to the students, assured them of taking immediate action and instruct the official to stop the unit from functioning.

Taluk Panchayat Member R. Mahesh, Gram Panchayat Member T.S. Mahadevaswamy, leaders Kodasoge Shivabasappa, Prakash, Basappa, Pranay, Manjunath and others were present.

It may be recalled that the villagers have been opposing setting up of the processing unit stating that it would affect the environment and their health. They have also been demanding the government to return their lands which was acquired by the company. The villagers and farmer organisations too had stage protests opposing the unit which had resulted in the protest turning violent about three years ago.

# Hundreds of farmers take out rally in city, seek clarity in farm loan waiver scheme

Mysuru, June 24 (RK&DM)- Seeking fulfilment of their various demands, over 400 farmers under the banner of Karnataka Rajya Raitha Sangha (KRRS) and Hasiru Sene, took out a massive rally in city this morning.

The rally, which commenced from Gun House Circle, passed through Chamaraja Double Road, Ramaswamy Circle, JLB Road, Hotel Metropole Circle and Hunsur Road to reach the DC's office, where demonstration was held for some time.

The farmers presented a memorandum at the DC's office, which contained their 22 point charter of demands that included clarity in the State Government's farm loan waiver scheme, compensation of Rs.10,000 per acre for loss of crops, release of water from KRS and Hemavathi reservoirs for saving standing crops from wilting, extension of job guarantee scheme to farming sector, supply of quality power for at least 10 hours a day, appropriate compensation to land-loser farmers who part with their farmland for formation of residential layouts, inclusion of more crops under Fasal Bima Scheme, filling up of all water bodies in the district, community participation in the Government's Jalamrutha scheme, expedition of Sakala Yojane, speedy disposal of cases pertaining to cultivation of lands that are before the Akrama-Sakrama Committee and an end to unauthorised sale of liquor in the district, among others.

KRRS office-bearers Hosur Kumar, Hosakote Basavaraju and others led the demonstration.

## Vaastu-Feng Shui & Bio-energetics

By S.B.S.Surendran
Accredited Master Feng Shui Consultant

# Home Balconies

Apartment living most often has a designated place of interest which is the balcony. The balcony is not just the area which channelises the energy into the home but also adds to the elegance of the living space or room if the view outside is good. From the Feng Shui perspective, a good balcony is one which overlook a river or a park, but most overlook a busy road as it draws in the active energy from outside.

However, in many homes outdoor space on balconies is the most often neglected, and is the place of accumulation of junk, mops and things that you wish to hide or throw away.

Based on the climate and architectural restrictions, a balcony can be everything from a beautiful view to an extra room in a home. Balconies with high walls and lots of protective overhang can serve as a complete "outdoor room" and can be utilised as a additional cozy corner.

While designing balconies, it is essential to take into account that there are no sharp shapes, corners and edges to avoid bad Feng Shui or "poison arrows." However, if the balcony does have sharp corners structurally, then placing tall healthy plants in these corners can help to mitigate the ill-effect of sharp corners or edges.

The direction balconies face is also important, the colours of the window-box, plants, flowers or blubs may be chosen to correspond to the balconies compass direction.

Keeping the balconies clean and inviting, ensures that the energy rolling into the home through the balcony is not stale and negative. Hence, make sure that the balconies are not overcrowded and pay attention to the proportions. Keep them free of rags, unwanted empty bottles and waste.

Homes which do not have a large balcony space or dream of having a garden space can convert the available open space into a healthy and energy generating space. One can use the balcony as a garden by placing plants on a patio, balcony and terrace or at the doorway to attract positive Chi. After all, a healthy display of green plants to greet you in the morning will spur you on for the day ahead and welcome you home in the evening.

Some of the general guidelines to enhance the Feng Shui of the home through balcony are:

• Maintain the balcony design and decor in proportion, if you have a small outdoor space, get cute little seats and cushions so that it doesn't look too cramped.

•Avoid spiky cactus plants or pointed leaf plants in the balcony as they prevent good energy from flowing into the home.

• In Feng Shui, plants signify wood element, promote well-being and help stimulate natural growth on a balcony area, hence choose the right greenery and plant to adore the balcony space.

•Fumigate the balcony space to keep it free of mosquitoes and burn aroma candles and incense sticks to purify the air.

• Placing fragrant flowering plants or filling the plant vases with aromatic herbs will enhance the Chi of the space.

Iyengar, Member, AVK Governing Board and Sudha M. Kumar, Vice-Principal.***

ICC World Cup - 2019

# Haris Sohail stars in Pak's win

London, June 24- A breezy and valuable knock by Pakistan's middle-order batsman Haris Sohail (89, 59b, 9x4, 3x6) and the combined efforts of their bowlers helped Pakistan to register a 49-run win over South Africa, at Lord's on Sunday, and kept their chances alive for qualification for the last four stage in the ICC 2019 World Cup.

With this loss, South Africa with 3 points from their seven games, have been knocked out of this edition of the World Cup.

**Decent start by Pakistan:** Winning the toss and electing to bat, Pakistan piled up 308 for seven in 50 overs. Fakhar Zaman (44) and Imam-ul-Haq (44) gave them a decent start by adding 81-runs for the opening wicket. Both fell to the guiles of leg-spinner Imran Tahir (two for 41), within a span of five overs and Pakistan were reduced to 143 for three at one stage.

Babar Azam (69) and Mohammad Hafeez (20) tried to build a partnership before Hafeez was dismissed by Aiden Marakram. Haris Sohail came in and batted freely and took the South African bowlers to the cleaners by scoring a breezy 89 (59b, 9x4, 3x6) and was dismissed in the last over. L. Ngidi (three for 64) and Imran Tahir (two for 41) bowled well for South Africa.

**South Africa falter:** Chasing 309 for a win, South Africa were never in sight of the target. Hashim Amla (2) fell leg-before to Mohammad Amir (four for one) early on in the innings. Quinton de Kock (47) and skipper Faf du Plessis (63) put on 87-runs for the second wicket, but their wickets fell soon and it changed the complexion of the match to make it rather one-sided one. Apart from Amir, Shadab Khan (three for 50) and Wahab Riaz (three for 46) bowled well for Pakistan. Andile Phehlukwayo (46), Rassie van der Dussen (36), David Miller (31) and Chris Morris (16) were the other contributors for South Africa. South Africa ended up scoring 259 for nine in 50 overs.

Haris Sohail's performance in the later part of Pak innings was the game-changer.

**SCORES**

B.C. Jayamma Memorial Open Chess Tourney

# City's Vivekananda triumphs

Mysuru, June 24- Mysuru lads — L. Vivekananda and V.P. Darshan — tied with 6.5 points from seven rounds, but with a better-tie-break score of 34 to the latter's 33, Vivekananda clinched the title in the Open section in the B.C. Jayamma Memorial Open Chess Tournament 2019, conducted by Learner's Chess Club, Gokulam, at a private hotel in city yesterday.

V.P.S. Darshan (6.5 points) and M.P. Ajith (6 points) secured the second and third places respectively.

**FINAL PLACINGS**

1. L. Vivekananda (6.5-34), 2. V.P.S. Darshan (6.5-33), 3. M.P. Ajith (6), 4. Nithin Pal (5.5-32), 5. Prasiddhi Bhatt (5.5-28.5), 6. C. Pavan (5-35), 7. M.N. Eshanvi (5-30.5), 8. Siddarth P. Vasisht (5-30), 9. Jitendra Kashyap (5-28.5), 10. I. Kavin (5-28.5), 11. M.G. Prameeth (5-26.5).

# Meghana wins bronze in Natl. Wrestling

Mysuru, June 24- R. Meghana, a student of Demonstration School, Mysuru, representing Karnataka U-15 Girls Wrestling Team in the National U-15 Wrestling (Free-style) Championships-2019 held at Kota, Rajasthan, from June 18 to 21, won bronze medal in the 62kg weight category.

Meghana is being coached by L. Manjappa, retired SAI, UoM wrestling coach and senior wrestler B. Shankar Chakravarthy at the University Lions Hall, Mysuru.

## Barty claims World No.1 Ranking with win in Birmingham

*Ashleigh Barty became only the second Australian woman to top the world rankings when she won the Birmingham WTA title on Sunday, beating Julia Goerges 6-3, 7-5. The 23-year-old French Open champion emulates Evonne Goolagong Cawley, who held it for a fortnight in 1976. Ashleigh Barty displaces Japan's Naomi Osaka as women's world number one.*

## Federer clinches 10th Halle title

*Roger Federer will head to Wimbledon in high spirits after waltzing past Belgium's David Goffin in straight sets to win a record-extending 10th title at the ATP event in Halle on Sunday. Roger Federer, 37, beat Goffin 7-6 (7/2), 6-1 to secure his 102nd career singles title and remain unbeaten on grass so far this season.*

# GTD launches development works in Chamundeshwari Constituency

Mysuru, June 24 (RKB&DM)- District Minister G.T. Devegowda (GTD), who represents Chamundeshwari Assembly segment, launched a slew of development works at Marattikyatanahalli falling under the constituency, yesterday.

The Minister performed *guddali puja* for the construction of Rajiv Gandhi Seva Kendra and launched the works for a drinking water unit and underground drainage system in the village.

Later speaking to press persons, GTD, referring to drinking water problems, especially in villages of the taluk, said that Multi-Village Drinking Water Project aimed at drawing water from Kabini will be expedited in six months. Also, the ambitious Undawadi Drinking Water Project will be completed in 18 months and the completion of these two major projects will permanently put an end to the water woes of the taluk villages.

Explaining his efforts to get Government sanction for Undawadi Drinking Water Project for which he had fought for years, he assured that all lakes in the taluk will be filled up from different water sources in a year and there will be no water problem during next summer. He further said that drinking water is being supplied through tankers to such villages which are facing severe drinking water crisis.

Turning to politics, GTD, replying to a question on senior Congress leader Veerappa Moily's statement that the Congress lost badly because of coalition compulsion said, now that the LS polls are over, no Congress or JD(S) leader should make controversial remarks on the poll results. Stressing on the need to focus only on development, now with the LS battle over, the Minister reminded leaders of both the parties that issuing controversial statements would only hurt the coalition partners and nothing can be gained. Appealing the Congress and JD(S) leaders for better co-ordination, he said that focussing only on development was the need of the hour.

MP Pratap Simha said that there were no fresh expectations for Mysuru from the full-fledged budget to be presented by Union Finance Minister Nirmala Sitharaman, as Prime Minister Narendra Modi has already announced almost everything in the interim budget presented in February.

Highlighting his contribution for the development of Mysuru-Kodagu LS Constituency over the past five years as an MP, Simha said that he will strive for timely execution of all the ongoing projects and would work for bringing more projects to the Constituency.

He thanked the people for re-electing Prime Minister Narendra Modi with a huge mandate and said that Modi will carry forward all his development agenda over the next five years too, with greater determination.

ZP Member Beerihundi Basavanna, TP Member Netravathi Venkatesh, TP EO Lingarajaiah, PDO Pradeep Kumar, BJP Chamundeshwari Block President Arun Kumar Gowda and others were present.

GTD later unveiled Dr. B.R. Ambedkar bust at Maddur village in the taluk. He thereafter left for Nanjangud on a private visit.

# AGM of District Tourist Vehicle Drivers and Owners Association held

*The school children are seen with the dignitaries.*

Mysuru, June 24 (US)- The Annual General body Meeting (AGM) of Mysore District Tourist Vehicle Drivers and Owners Association was held recently at Veene Seshanna Bhavan in Kuvempunagar here. Association Hon. President B.S. Prashanth distributed school bags to 130 children of member drivers.

Mysuru Travels Association Executive Committee distributed books to the students. Travel Parkz Proprietor Jayakumar and Spice Trip Company distributed financial aid to four meritorious SSLC and PUC students.

Tourist Vehicle Drivers and Owners Association President S. Nagaraj, Secretary K.T. Divakar, Hon. President and Safe Wheels Proprietor B.S. Prashanth, Travel Parkz Proprietor Jayakumar, Travel Agents Association President Shivalingu, Directors and Assn. Executive Committee Members were present.

# 'Yoga Bhavan' inaugurated

Mysuru, June 24- Marking International Yoga Day, Mayor Pushpalatha Jagannath inaugurated 'Yoga Bhavan' on Ramanuja Road, the first of its kind in the city, on June 21.

Later speaking, Pushpalatha said that the Bhavan is meant for practising yoga by members of the public and this was the first such facility in the city, built at a cost of Rs.25 lakh by the MCC.

She appealed the members of the public to make best use of the Bhavan, for maintaining physical and mental health.

KR MLA S.A. Ramdas, who presided, said that he was happy to note that Dr. Manjunath, a Mysururean and resident of MCC Ward No.51, and Ganesh from the State had composed and scored Music for Yoga Theme song on International Yoga Day.

Pointing out that the construction of Yoga Bhavan would popularise yoga, he underlined the role of Yoga Gurus in educating the public on practising yoga for better health and mental fitness.

Calling for setting up of a Federation covering all yoga organisations in the city, Ramdas said that he would strive for constructing more such Yoga Bhavans covering all MCC Wards of KR Assembly segment.

Yoga exponent Prakash said that free yoga classes would be conducted at the Bhavan both in morning and evening, starting from July 1.

Area Corporator B.V. Manjunath too spoke. Yoga promoter Ramesh, yoga exponent Nandakumar, MCC Zone-1 Assistant Commissioner Ranjit Kumar and others were present.

# Yeddyurappa visits Green Mysuru Abhiyan Farm

Mysuru, June 24- Former Chief Minister and State BJP President B.S. Yeddyurappa visited the Green Mysuru Abhiyan Farm on Nanjangud Road recently and inspected the preparations for the launch of Green Mysuru Abhiyan.

He expressed happiness at the launch of Green Mysuru programme by H.V. Rajeev Sneha Balaga and said that such initiatives must be started in all the cities and villages in the State and asked the public and organisations to join the movement. Taking up this project along with Swachh Mysuru is very laudable, Yeddyurappa added.

**Background:** The H.V. Rajeev Sneha Balaga which started the Swachh Mysuru Abhiyan on Nov.1, 2014 has successfully completed 281 weeks without interruption.

This year, seeing the temperatures in the city touching 38 degrees Celsius and as a consequence the problems being faced by the people and the animals, the Balaga decided to take up the cause of protecting the environment and the rise in temperature.

With this aim in mind, they started the 'Green Mysuru' Abhiyan and decided to collect honge, neem, mahogany, jamun and other forest saplings and store it in Rajeev's farm on Nanjangud Road (next to Gejjagalli Gate).

As of now, there are 10,500 saplings stored of which 2,500 are 8 to 10 feet in height and the remaining 8,000 are 3 to 4 feet in height. The idea is to do the re-bagging of the latter saplings by growing them to a height of 8 to 10 feet, said Convenor K.S. Sheshaprasad speaking to *Star of Mysore*.

The reason to do this is to see that the saplings are not destroyed by cattle and even man after they are planted and this can be stopped if the plants grow to a height of 8 to 10 feet and then planted, he added.

H.V. Rajeev Sneha Balaga is tying up with the Sri Kshetra Dharamsthala Rural Development Project (SKDRDP) and Dharmadikari Dr. D. Veerendra Heggade is likely to inaugurate the Green Mysuru Abhiyan shortly, said Sheshaprasad.

The saplings will be planted in many parts of the city including in parks and public places in association with Sri Kalki Bhagavan Sevalaya, Spandana Trust, Koti Vriksha Prathisthan and other voluntary organisations, he said.

# Whopping Rs.1 crore spent for CM's one-night village stay

## Kumaraswamy to go ahead with village stays even as Opposition asks, 'Kumaranna Idu Yenanna?'

Kalaburagi, June 24- Chief Minister H.D. Kumaraswamy showed simplicity by opting to sleep on a mat instead of a mattress in the government school of Chandaraki village in Kalaburagi district. But one will be astonished to know that even that simplicity has come at a huge cost. A large chunk of money was spent on making arrangements for his large entourage and the visitors.

Local officials, eager to please, seem to have achieved the one goal that Kumaraswamy had not planned for his 'Grama Vastavya' series, that of keeping it simple. While he said that no special arrangements will be made, the reality on the ground paints a different picture.

The CM has spent Rs.1 crore for his village stay of 24 hours at Chandaraki village. Out of this amount, Rs.25 lakh was spent for food for the people who had arrived at the village. Another Rs.25 lakh was spent for shifting the office of the CM and also for setting up counters for receiving applications from the public.

Lunch was prepared for around 25,000 people and dinner was served for nearly 500 people including students, teachers, officials and local politicians. The expense of Rs.25 lakh included the morning breakfast also.

The rest Rs.50 lakh was spent for the stage setting and the 'Janata Darshan' programme of the CM. Over 4,000 people took part in the 'Janata Darshan' programme and 1,800 online applications were received.

Speaking to media, Kumaraswamy said, "I have decided to create a separate cell that will monitor implementation of assurances given to people during 'Grama Vastavya' in different parts of the State."

On why his own assurances given in 2006 could not be fulfilled in many places, the CM laid the blame at the doors of the BJP and B.S. Yeddyurappa, who was Deputy Chief Minister and held the Finance portfolio.

"Now the Finance portfolio is with me and there is a lot of time to respond to grievances," he said.

# RBI Deputy Governor Viral Acharya resigns

*Viral Acharya*

New Delhi, June 24- Reserve Bank of India (RBI) Deputy Governor Viral Acharya, who was in-charge of the Monetary Policy Department, has resigned six months before the scheduled end of his term, according to sources today.

This is the second high profile resignation in the past six month at the RBI. In December, RBI Governor Urjit Patel resigned nearly nine months before the end of his schedule term over differences with the government.

Acharya had put in his papers a few weeks before the last meeting of RBI's Monetary Policy Committee (MPC) that was held on June 6, sources said.

Acharya had joined the Central Bank on Jan. 23, 2017 after Patel was elevated to the post of Governor in September 2016. Acharya was in charge of the Financial Stability Unit, Monetary Policy Department, Department of Economic and Policy Research, Financial Markets Operation Department, Financial Market Regulation Department, among others at the RBI.

Acharya, a New York University Economics Professor, who once called himself the 'poor man's Raghuram Rajan', was appointed for three years.

The RBI is now left with three Deputy Governors N.S. Vishwanathan, B.P. Kanungo and M.K. Jain. N.S. Vishwanathan, whose term is due to end in the first week of July is likely to stay back for another two-year term. The process for finding Vishwanathan's successor has been put on hold.

He took over at a time when the Central Bank was facing criticism for repeated changes in the rules related to deposit and withdrawal of money, post-demonetisation.

# D.R. Jairaj is new Film Chamber President

*D.R. Jairaj*

Bengaluru, June 24- D.R. Jairaj was elected unopposed as the new President of Karnataka Film Chamber of Commerce at Bengaluru recently.

Jairaj was declared elected unopposed as producers Rockline Venkatesh, Sundar Raj and Narasimhulu withdrew their nomination. In other election, Venkataramana was declared elected as the Vice-President and M. Narasimhulu as Hon. Secretary from Exhibitors category and A. Ganesh as Hon. Secretary from Distributors category.

The election for the rest of the posts will be held on June 29, for which EVMs will be used.

# No Congress ticket for those indulging in anti-party activities: Khandre

*KPCC Working President Eshwar Khandre addressing party workers at the Congress office near the City Railway Station on Sunday.*

Mysuru, June 24 (MK&DM)- KPCC Working President Eshwar Khandre has said that only loyal Congress leaders and workers will be considered for issuing party tickets in future elections.

Addressing party workers at the Congress office near the City Railway Station on Sunday, Khandre maintained that those indulging in anti-party activities will not be given the Congress ticket in the future.

Calling party workers to work only for those candidates chosen by the party, Khandre reiterated that party loyalty comes first in the allotment of tickets.

Stating that the Lok Sabha election results was a shock for him, Khandre said that, however, the Congress has maintained its base in Mysuru region, going by the results of Local Body Polls.

Noting that the party must be built under the leadership of CLP leader and former CM Siddharamaiah, he said that the Congress will be strengthened by the organisational skills of KPCC President Dinesh Gundu Rao, senior leaders Mallikarjun Kharge, D.K. Shivakumar and others.

Admitting that there are a few problems in the Congress, just like any other party, Khandre said that the Congress always stood for social justice. Calling for a serious introspection on the reasons for the party's defeat in the LS Polls, Khandre emphasized on the need for changing the Congress campaign mechanism and underlined the need for organising the party at all levels, right from the grassroot level.

MLA Tanveer Sait, MLC R. Dharmasena, former MP C.H. Vijayshankar, former MLA Vasu, District Congress President Dr. B.K. Vijay Kumar, City Congress President R. Murthy, KPCC Women's Wing President Dr. Pushpa Amarnath, Mayor Pushpalatha Jagannath, leaders Prakash, Nagesh Kariappa, Abdul Khader and others were present.

**Followers demand Cabinet berth for Tanveer Sait**

At the meeting, followers of NR MLA and former Minister Tanveer Sait demanded a Cabinet berth for their leader. The supporters presented a memorandum to Eshwar Khandre, seeking induction of Tanveer Sait to the Cabinet of the Coalition Government.

Responding to the plea, Khandre said that Tanveer Sait is a senior and loyal Congress leader, who has stood with the party during difficult times.

Stating that Sait deserves a Cabinet berth, Khandre however maintained that it was the party High Command which decides on who should be included in the Cabinet. Being a very loyal party leader, Sait can look forward for better days, he added.

# Applications invited for extending loans

Mysuru, June 24- Karnataka Vishwakarma Development Corporation has invited applications from community members and also Vishwakarma sub-sect members for availing loans under various schemes.

Under the Ganga Kalyana Scheme, small and micro farmers, who own a minimum of two acres and a maximum of five acres of land at one place are eligible to seek farm loans. Farmers in the age group of 18 to 55 years can apply.

Loans are also available for self-employment, education, trades and vocations etc. The annual income of applicants must not exceed Rs.40,000 in case of rural applicants and Rs.55,000 in case of applicants from urban areas. For Arivu scheme, the annual income ceiling is Rs.3.5 lakh.

The prescribed application forms can be collected from the office of the Corporation in the city and at the Backward Classes Welfare Department Office at their respective taluk and the same must be returned before July 22.

For details, contact Ph: 0821-2341194, according to a press release.

# Hostel admission

Mysuru, June 24- The Chikkaveera Deshikendra Swamiji Free Students Hostel, located on Bannur Road, has invited applications from poor rural students pursuing PUC, Degree, PG Degree, Engineering and other Professional Courses, for admission to the Hostel (2019-20). The last date to apply is June 25.

The selection will be based on an interview to be conducted at the Hostel at 10.30 am on June 30, according to a release.

For details, contact Mob: 90353-27193 or 99720-98522.

## WORD OF THE DAY

### Boilerplate

**Pronunciation:** BOY-ler-playt.

**Meaning:** Syndicated material supplied especially to weekly newspapers in matrix or plate form; standardised text; formulaic or hackneyed language; tightly packed icy snow.

**Origin:** In the days before computers, small, local newspapers around the U.S. relied heavily on feature stories, editorials, and other printed material supplied by large publishing syndicates. The syndicates delivered that copy on metal plates with the type already in place so the local papers wouldn't have to set it. Printers apparently dubbed those syndicated plates "boiler plates" because of their resemblance to the plating used in making steam boilers. Soon boilerplate came to refer to the printed material on the plates as well as to the plates themselves. Because boilerplate stories were more often filler than hard news, the word acquired negative connotations and gained another sense widely used today, such as "hackneyed or unoriginal writing."

**Example:** "'I think the middle class is getting clobbered,' he said one day, over lunch. 'I think there has to be a significant change in both, over time, fiscal policy and tax policy.' He was trying to get that view 'further insinuated into the White House,' he said. It seemed like boilerplate, and I didn't quote it." — Evan Osnos, The New Yorker, 26 Apr. 2019.

## THE ODD WORD

**Bumfuzzle**

Confused, perplexed

## PHRASE OF THE DAY

### Bad news travels fast

**Meaning:** The proverbial saying 'bad news travels fast' can be taken literally. In a wider sense it is a comment on human nature being more interested in failure than success.

**Origin:** 'Bad news travels fast' is first found in print in the English author Thomas Kyd's tragedic play The Spanish Tragedy, which was written sometime between 1582 and 1592. It includes these lines:

If he lived, the news would soon be here.
Nay, evil news fly faster still than good

There's not a great deal more to say about this expression. Unlike many proverbs, it is merely a literal observation on life rather than the more commonplace uplifting metaphorical motto intended to spur us to greater morality or industry.

## QUOTE BOX

The bad news is nothing lasts forever, The good news is nothing lasts forever. **— J. Cole**

# US Consul General visits SVYM to promote Global Citizenship

Mysuru, June 24- The Consul General of the United States Consulate General in Chennai, Robert G. Burgess, visited Swami Vivekananda Youth Movement (SVYM), Mysuru, recently to promote citizen-to-citizen, people-to-people relationships, with the larger goal of creating global citizens especially in the fields of cultural and educational exchange.

SVYM is a development organisation, engaged in building a new civil society in India through its grassroots to policy level action in the sectors of Health, Education, and Community development for the last 34 years.

SVYM has set up the Vivekananda Institute for Indian Studies (VIIS) at Mysuru with an aim of introducing India and promoting India's culture and heritage to the world. VIIS aims to expand human and social capital in order to create global citizenship, citizens who strive to make the world a better place.

Consul General Robert Burgess highlighted the activities of the US Consulate in India, Chennai, its role in fostering partnerships with academia in both countries, and the many opportunities that US students have for pursuing their studies in India. He emphasised that people-to-people relationships, programmes that connect Indian and US citizens, connect programmes and events where individuals can share the culture and heritage of both the countries which are pivotal to building long-lasting partnerships.

Dr. M.R. Seetharam, President, SVYM, Donna Ramil, Associate Director, Intl. Studies, ILR School Cornell University, SVYM Dy. CEO Praveen and other senior staff of SVYM briefed him about the activities of SVYM and the on-going University partnerships.
